

HT20

VHF MARINE TRANSCEIVER

WHY COMPROMISE?

**Reliable.
Enduring.
Tough.**

It's not just an essential marine communications tool, ready to go at the touch of a button. If and when you find yourself on the wrong side of the cruel sea it can be a life-saver. So don't compromise by relying on inferior products, insist on the radio that's way out in front of its competition. Built to a stringent standard, the robust HT20 is designed to shrug off wind, rain and salt water to give you years of trouble-free use. You can depend on it.

KEY FEATURES

- ✓ 2000mAh Lithium battery technology
- ✓ Fully submersible IP67
- ✓ Robust MIL-STD construction
- ✓ Simple and intuitive operation
- ✓ High visibility back-lit LCD
- ✓ Exceptionally loud audio
- ✓ Robust multi pin accessory connector
- ✓ All USA, International, and Canadian marine channels
- ✓ 36 Private channels
- ✓ Lightweight polycarbonate construction, just 277g
- ✓ Extensive range of optional accessories

Entel HT20 Endurance Engineered

About HT20

Designed in the United Kingdom, with its long sea-faring tradition, the HT20 is the latest VHF marine radio to be launched by the renowned commercial marine radio manufacturer, Entel.

When the going gets rough, you'll be impressed by the HT20's rugged Mil-Std 810 durability, its water-tight IP67 submersibility rating, rubberised side-grips and overall quality construction. Even with gloved fingers, you'll find its keypad buttons easy to navigate.

With its large, back-lit LCD screen, the HT20 is more than a match for poor light conditions, while its exceptionally loud, punchy audio will just keep on going - all powered by a long-lasting 2000 mAh lithium-ion battery pack.

No matter if you're sailing in International, US or Canadian waters, the HT20 can effortlessly switch between their respective marine VHF channel schemes, while its robust multi pin accessory connector allows for the flexibility offered by any one of an extensive range of accessories, from earpieces to remote speaker microphones.

With a proven track record of producing market leading commercial marine radio products, the HT20 is the "no compromise" culmination of Entel's wealth of design experience and engineering excellence. All this quality at a surprisingly affordable price.

Technical Specifications

RF Power output	5W (high) / 1W (low)
Frequency Range VHF	156 to 163.275MHz INT, USA, CAN
Environmental Protection	IP67 submersible 1M for 30 minutes
Military Standard	MIL-STD 810C/D/E/F
Thermal shock	As per MIL-STD
Humidity	As per MIL-STD
Operating temperature	-20 to +55C
Audio Output	660mW—distortion: < 3% @ 500mW
Dimensions*	130mm (h - ex. controls) x 59.5mm (w) x 37mm (d)
Weight	277g (with battery and aerial)

Testing completed using portable radio with attached battery and antenna.

Specifications subject to change without notice. All specifications shown are typical unless otherwise stated.

Radio meets applicable regulatory requirements.

Supplied Accessories

7.4v, 2000mAh Li-Ion battery

High efficiency antenna

230V Charger

12V DC Lead

Spring loaded belt clip

Lanyard
